Filter Nozzles & Water Caps

Also called: Distributor water caps · Strainer nozzle · Wedge wire nozzle

Screen nozzles for distributor plates: liquid passes through, media or catalyst stays behind.

What is it? Small screen nozzles screwed into a plate. Liquid passes through their slots, while the filter material or catalyst stays behind.

Key Features

- Precise screen slots
- Custom designs

Applications

- MEK units
- Ethylene glycol units
- Water treatment filters and ion exchange vessels
