High-Efficiency Valve Trays

Also called: High-efficiency tray · Valve tray · Distillation tray

A tray for tray columns, with guided float valves that increase throughput.

What is it? A horizontal plate inside a tray column, with valves that let gas bubble up through the liquid on the tray. Many trays are stacked in one column.

Key Features

- Trapezoidal guided float valves
- Fewer dead zones
- Greatly increased throughput

Applications

- Tray columns
