Gas-Liquid Distributors (Trough-Pan Type)

Also called: Trough-pan liquid-gas distributor · Low height distributor

Distributes both gas and liquid evenly, with low height and good resistance to fouling.

What is it? A distributor that spreads both the gas and the liquid evenly across the column, while taking up very little height.

Key Features

- Easy to install, prevents leakage
- Large gas-liquid contact area
- Low height, low pressure drop
- Shutter layout can collect liquid

Applications

- Packed columns
